Dear The Federal Communications Commission,

Congratulations on your appointment to Chair the FCC. In your new leadership role, I beg you to help those of us who are struggling to make ends meet. Speaking for myself (and I'm sure thousands of others), I have not had a pay raise in at least 6 years, yet everything around us goes up in price, especially taxes. Gasoline, food, insurance costs, utilities, car and home maintenance, and the thousands of other things continue to suck the life out of us. How long can we, the consumer, the commonfolk, continue to make \$100 a week when it costs \$200 a week to live????

I realize everyone is in the same situation. Costs continue to rise and there is nothing any one of us can do about it. All we do is struggle....maybe take on an extra job to make ends meet, spend less time with our children and families, and drive ourselves to an early grave stressing over what we can't control. Please help us end this cycle and keep the costs controlled and reasonable for those of us who simply can't afford one more out-of-pocket expense.

May I speak for all when I say thank you for helping us.

Sincerely,

Laurie Peterson Jamestown, NY LauriePeterson@yahoo.com
